

Creating the perfect model of off-highway vehicle recreation for all land managers, program administrators, and enthusiasts.

INOHVAA Position Statement Regarding Modifying Vehicle Exhaust Systems

As the lead organization in promoting excellence in the management of organized recreational off highway vehicle recreation, the International Off Highway Vehicle Administrators Association (INOHVAA) recognizes that the OHV community has riding opportunities in place which utilize a multitude of public and private lands. Excessive sound can be a factor in conflicts with other outdoor recreationalists and landowners which may lead to loss of access.

As such the INOHVAA does not support the use of modified, altered, or any exhaust systems that exceed regulatory sound level regulations.

Approved at AGM 10/30/2015
